

How to make s'mores

Marshmallows

What you need: model magic or air dry dough, pencil

How to make them: Students roll the dough into balls and poke a hole at the end with a pencil. Let dry.

****You can also use cotton balls for marshmallows!****

Graham Crackers

What you need: brown paper

How to make them: Laminate the brown paper and cut into 2 or 3 inch squares.

****You can also make using model magic or air dry dough for graham crackers.****

Chocolate

What you need: model magic or air dry dough

How to make them: Students roll the dough and cut into small rectangles with a cutter or rectangle cookie cutter. Paint black when dry.

****You can also laminate black paper and cut it into squares for the chocolate.**

Bags/Containers: Just print the labels and tape it to a baggie or a box for students to keep each item in. If you have the a real container or box for each, you can use that instead.

extra labels

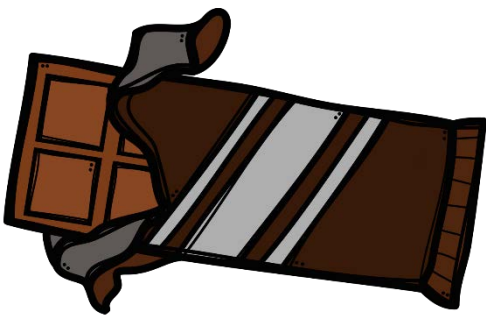

Print and tape these labels to boxes and/or baggies to keep your food in.

graham crackers

marshmallows

chocolate

hot dogs

how to make hot dogs

What you need: red tissue paper and tape

How to make them: Students roll up the tissue paper and squeeze it to create the hot dog. Tape up the ends and the middle of the hot dog.

Hot Dog Bag/Container: Just print the hot dog label and tape it to a baggie or a box to keep the hot dogs in.

**If you have model magic or like using air dry dough, you can make hot dogs using that, too.
